

MD MEDICAL GROUP INCREASES OUTPATIENT CAPACITY IN SAMARA

24 July 2025. MD Medical Group IPJSC ("MD Medical", "MDMG", "Group" or the "Company"; MOEX: MDMG), a leading Russian private healthcare provider, announces the opening of the children's clinic Mother & Child IDK in Samara at a new address.

Working for more than 15 years, the children's clinic Mother & Child IDK today moved to the new spacious premises with a total area of 853 sq.m. That is 2 times more than before. This will increase the capacity of the clinic from 50 thousand visits to 104 thousand visits per year.

The Company's clinic in Samara provides competent medical care for children from birth to 18 years old: laboratory and functional diagnostics, clinical examination, vaccination, effective and safe therapy and prevention of childhood diseases.

Specialists of the clinic - allergists-immunologists, gastroenterologists, cardiologists, speech therapists, otorhinolaryngologists, neurologists, nephrologists, ophthalmologists, pediatricians, psychologists, pulmonologists, urologists, andrologists, surgeons, orthopedists and endocrinologists - highly qualified children's doctors with extensive experience working with babies and schoolchildren. In June of this year, the doctors of the clinic received an award for the formation of a gold standard in pediatrics at the annual GOLD award in Samara.

For 5 years, the Clinic has been the basis for practical training of resident doctors of Samara State Medical University.

With the increase in the area of the children's clinic, new areas of medical care are opening up, such as pediatric gynecology, dermatology, pediatric psychiatry, traumatology. They are necessary to provide an expanded range of medical services to the children's population of Samara, Samara region, patients in the nearby regions of Orenburg, Saratov, as well as friendly countries such as Kazakhstan. The clinic is equipped with additional advanced equipment and uses new methods of diagnosis and treatment in the areas of neurology, otorhinolaryngology, ophthalmology and allergology.

Situated in leased premises, Mother & Child IDK clinic has received a total investment of RUB 100 million for its opening and outfitting, financed entirely through the Company's own resources.

MD Medical CEO Mark Kurtser said:

"The Mother & Child Group of companies has long and successfully provided high-tech medical care to patients in Samara and neighboring regions on the basis of our IDK cluster. Pediatrics is an important area of medical care. The high demand for our children's clinic has led to the need to expand it. Now we can provide high-quality medical care in comfortable conditions to even more young patients. The increase in the area also made it possible to equip the clinic with additional modern equipment and open new areas of medical services."

"Today, in a number of our outpatient centers, we see the maximum level of capacity utilization, and where possible, we are implementing a strategy to expand their areas, both by adding additional space and moving to new premises. For us, the development of outpatient care is an important component of the success of our business model, which allows us to increase patient flow in popular clinics and load nearby hospital facilities."
